

Dear customer,

We invite you to visit us at **CHINAPLAS 2016, Hall E4, Booth B11**, where we will present our wide hot runner systems and tooling product offering that serves a broad range of customers in the plastic processing equipment marketplace.

Thermoplay is present with sales and technical team in 48 countries worldwide. New branches recently set up in China and India join those already established in France, Germany, United Kingdom, Portugal and Brazil.

NOZZLES AND SINGLE NOZZLES

The Thermoplay nozzles are suitable to inject any plastic material, thanks to the special tip types. The wide range of our product includes direct injection nozzles with shut off valve or free flow, seated or threaded to the manifold, single injection nozzles, which can be supplied with variable lengths ...
