

Amerimold - Chicago June 14-15, 2017

We invite you to visit our **Booth 713**, where we will present our latest hot runner innovations that serve a broad range of customers in the plastic processing marketplace.

High cavitation systems for the packaging market

With over thirty years of experience in injection systems, Thermoplay, with its wide range of products, is able to meet the challenges of multi cavity systems.

Mini valve gate nozzle

- Nozzle diameter 11 mm
- Small pitch: 13 mm with plate actuated
- Gate area: 0.8 to 1.2 mm
- Capable of injecting inside small parts
- Ideal for applications for high cavitation applications
