## Mini valve gate nozzle

- Nozzle diameter 11 mm
- Small pitch: 13 mm with plate actuated valve gate solution
- Gate area: 0.8 to 1.2 mm
- Possible to inject inside small parts
- Low thermal dispersion to facilitate design of conditioning circuit
- Reduced pin stroke: 5 mm
- Clean and aesthetic injection point
- Pneumatic or hydraulic actuation
- Reduced power consumption: 100 W/nozzle max
- Colour change option
- Conical or cylindrical pin finishing
- Variable nozzle lengths: 56 to 106 mm
- Suitable for applications in cosmetic, medical, food packaging and clean room operation
