

NEW

Mini valve gate nozzle

- Nozzle diameter 10.5 mm
- Minimum pitch: 17 mm
- Gate diameter: 0.8 to 1.2 mm
- Variable nozzle lengths: 56 to 146 mm
- Pneumatic or hydraulic actuation
- Pin stroke: 7 mm
- Conical or cylindrical pin finishing
- Tip can be replaced at machine board
- Low thermal dispersion and power consumption (150 W/nozzle max)
- Clean and aesthetic gate vestige
- Suitable to inject small parts, inside and outside
- Suitable for injection of all thermoplastics, excluding abrasive materials
- Suitable for applications in cosmetic, medical, food packaging
