

PLASTIC PARTS INFORMATION REQUEST FORM

PHOTO

PART I : Essential information to compile always

System Code SS...			
Nozzle type		Cavity nr.	
Mould Test Date		Injection points nr.	
Client		End user	
Commercial sector			
Description of piece			
Material injected (precise description)			
Injection type	Direct <input type="checkbox"/>	Indirect <input type="checkbox"/>	
Authorisation to exhibit at fairs	Yes <input type="checkbox"/>	No <input type="checkbox"/>	
Authorisation for photo publication	Yes <input type="checkbox"/>	No <input type="checkbox"/>	

PART II : Information necessary in case the samples are not provided

Weight of single piece		gr.	Dimensions	
Average thickness of the walls		mm.	Injection gate Ø	
Total cycle moulding time		sec.		

PART III : Other important information

Type of temperature controller				
Temperature of the fixed part of mould		°	T° mobile part of mould *	
Nozzles temperature		°		
Temperature of manifold		°
